

Huddly IQ kit for Jamboard

Immersive video collaboration

The Huddly IQ kit for Jamboard is a video collaboration accessory that builds on the power of Jamboard and Meet to transform Google Cloud's digital whiteboard into a premium audio and video endpoint.

Custom made for remote teamwork

The kit includes a Huddly IQ camera, custom bracket and cable, and enables your Jamboard to host both a wide-angle video meeting and a creative collaboration session simultaneously.

See everyone, hear everyone

With HD ultra-wide-angle video, Huddly IQ ensures that everyone is seen, even those who are huddled around the Jamboard. The microphone array picks up everybody's voice and delivers crystal-clear audio.

- 150° ultra-wide-angle lens
- 5-element microphone array
- Easy mounting with custom bracket
